## TEAMS ON DEMAND

### ON-SITE, OFF-SITE, OFF-SHORE.

CCS has a proven method of Software Development Lifecycle process management. We have refined and optimized our solutions to ensure quality product delivery that is on time and on budget. Our preferred build and delivery models include on-site analysis, off-site & off-shore development, and on-site deployment. This model provides maximum flexibility, improved business process, reduced costs, and ensures that our clients keep pace with technological advances.

#### ON-SITE |

Our team of skilled consultants can deploy to any client location nationwide and work seamlessly within an organization. This helps our customers reduce administrative and labor costs. Our clients are able to meet technical needs quickly without the hassle of trying to secure such skilled resources from the open market.

#### OFF-SITE |

CCS operates modern development centers and QA test centers in San Diego and Phoenix. Our off-site infrastructure is available to augment the resources of our clients and accelerate projects.

#### OFF-SHORE |

CCS can help move business operations and software development offshore. We leverage a large pool of talent unrivaled in skill and productivity to provide the customer with a competitive edge. The value proposition is one of global reach, better profitability, and faster go to market ability.

## WHAT MAKES US THE BEST SOFTWARE ENGINEERING COMPANY

FOUNDED IN 1997 |

OFFICES IN THE U.S.

Certified Minority Business Enterprise (MBE)

**CCS**  
GLOBAL TECH

CCS IS A LEADING PROVIDER OF END-TO-END SOLUTIONS FOR THE IT OPERATIONS OF YOUR ENTERPRISE.

## COMPETITIVE ADVANTAGES

### 13 YEARS EXPERIENCE |

CCS is a California company that has been operating for over 13 years. CCS prides itself on being a nimble and creative team of professionals with deep industry expertise who are ready to create business and technical solutions to complex problems. CCS can do the work from many locations with dedicated resources, at a fast pace, and better price than competitors.

### TOTAL MANPOWER |

CCS is a Global IT Company with 100 plus Engineers. CCS provides end-to-end solutions for enterprise. Our global reach of clientele benefit from the analysis, development, and support we provide. We possess the technologies necessary to shorten software development lifecycle in terms of both time and expense, and improve existing IT service and support to include enterprise architecture and implementation, system integration, legacy migration efforts, data warehousing, and business intelligence across multiple platforms.

### W-2 EMPLOYEES |

CCS is not a recruiting company. Our consultants are hand selected employees of CCS who have been hired, trained and managed by our firm. CCS guarantees the quality of our IT professionals that are deployed with client companies. These talented consultants provide mission critical expertise to build and enhance technology platforms and meet the needs of our clients operations.
